Available with Bring-it-Back

1. US - \$12/day, International \$15/day to a maximum of \$300 per bill cycle.

2. Unlimited nationwide minutes do not share.

3. US - \$12/day to a maximum of \$240 per bill cycle, International - \$15/day to a maximum of \$300 per bill cycle.

4. Local Call Forwarding overage rate is \$0.45/minute.

5. Data speeds reduced to a maximum of 512Kbps after your included high-speed data bucket is exhausted. Speed may vary with your device, internet traffic, environmental conditions, and other factors.

6. The Owner's Advantage Plan is available for new activations and renewing TELUS Business mobility customers in Canada. The contract term for the Owner's Advantage plan is 12 or 24 months. This offer is not available for customers activating on BYOD, or mid-contract migrations. The Owner's Advantage Plan is not stackable with any other in-market offers or promotions, including, but not limited to the TELUS Referral program.

7. To be eligible for Multi Unit Discounts, at least two subscribers on an account must be on an existing Simple Share, Peace of Mind™, Owner's Advantage plan or new Unlimited for Business plan. Only the subscribers on an existing Owner's Advantage plan or new Unlimited for Business plan are eligible to receive the discounts. Discounts will be updated when subscribers are added or removed on an account. Multi-Unit Discount will now be applied as a service discount, against their rate plan directly (discount is now applied before the tax calculation). Small Business accounts only. The Multi-Unit Discount will be in effect only once the required number of qualifying lines are active on the account. This means that there will be instances where the customer will only see the discount on the next bill. Placing the order does not initiate the Multi-Unit Discount; only once the line has been activated and the phone has been received by the customer will the discount take in to effect.
